Student Data Upload (SDU) File Requirements

Spring 2009 Writing and Non-Writing Test Administrations

Introduction

The main purpose of this document is to identify and define the data fields included in a student assessment record for the Spring 2009 Writing and Non-Writing Test Administrations. School divisions have the option to a) electronically upload their student assessment records as a *Student Data Upload* (SDU) file into the PEMSolutions web-based system via a process called *Student Data File Submission* or b) manually code their student assessment records in PEMSolutions by using the various Test Setup and Student Registration screens.

School divisions are strongly encouraged to use the electronic *Student Data File Submission* process to help eliminate manual data entry errors; however, it is not a requirement. Detailed directions regarding how to complete the *Student Data File Submission* process are available in Appendix D of this document.

NEW FOR SPRING 2009

Race/Ethnicity (REQUIRED):

The Race/Ethnicity field is now a **test-specific** field and must be populated for each test the student is taking. The record will be rejected if this field is left blank in an SDU file. If a student has a multi-ethnic background and does not identify with one of the race/ethnicity groups or objects to providing this information, the value "00-Unspecified" should be selected.

Change Log

The following table contains a record of changes made to the SDU File Requirements document.

No.	Date	Description
0	9/24/08	Created Spring 2009 from the Fall 2008 Requirements Race/Ethnicity is now a Test Specific field, meaning that Race/Ethnicity must be entered for each test a student takes.
1	1/09/09	Updated the administration codes to wrsprg09 and nwsprg09

Preparing a Student Data Upload (SDU) File

When preparing an SDU file, the file must be formatted as a comma separated values (CSV) file. The order and length of the data fields and the types of characters in the data fields must follow the descriptions provided in this document, and any header rows must be removed from the file prior to being uploaded. For example, if the *Student Data Upload File Template* (a MS Excel spreadsheet) is used to prepare the SDU file, the header row (row 1) must be deleted and the final version must be saved as a CSV file.

The following naming convention is recommended for an SDU file: CCTYYDDD.csv where CC refers to the administration type (WR=Writing or NW=Non-Writing), TT refers to the test administration (SP=Spring), YY refers to the year (YY=09), and DDD refers to the 3-digit division code. The filename extension must be .csv, and the pathname of the file must not include any periods. For example, C:\D.SmithWRSP09.csv needs to be C:\DSmithWRSP09.csv.

Separate SDU files must be created for the different test administrations (e.g. a Spring Writing SDU file and Spring Non-Writing SDU file); however, multiple files may be uploaded for each single administration. For example, divisions may wish to submit files separately by school rather than submitting one large division file. Regardless of the number of schools or students represented in a file, divisions are encouraged to submit SDU files at the division

Student Data Upload (SDU) File Requirements

Spring 2009 Writing and Non-Writing Test Administrations

level in PEMSolutions for consistency. If uploading SDU files at levels other than the division level, users must remember to return to each specific level to review individual SDU file status and correct any errors.

Note for Spring 2009 Writing Test Administration SDU Files: Students defined as Term Graduates (attempting to accrue sufficient verified credits to graduate by August 31, 2009) may complete two attempts of the End-of-Course (EOC) Writing test in the Spring 2009 Writing Test Administration. In the SDU file, the assessment records for these students must have a "Y" entered in the Term Grad field. A "Y" in the Term Grad field will result in: a) two Pre-ID labels generated for the student, b) the student's writing short paper automatically appealed or scored a second time, and c) the student's original test assignment automatically duplicated in PEMSolutions to account for the 2nd test attempt. Because a test assignment will automatically be duplicated when a second EOC Writing test with matching demographics is processed, the individual student's record should appear only once in the Spring 2009 Writing SDU file. This is in contrast to the Spring 2009 Non-Writing SDU file.

Note for Spring 2009 Non-Writing Test Administration SDU Files: A student record must be uploaded in the Non-Writing Test Administration SDU file for each SOL test a student will be administered. This could result in multiple records in a file for a student taking more than one SOL test during an administration. For example, an 8th grade student will likely be represented by three records in the Non-Writing Test Administration SDU file. These three records will generate individual test assignments for the Gr. 8 Mathematics, Gr. 8 Reading, and Gr. 8 Science tests for the student. While many fields in the three records will be the same, certain test-specific data fields (e.g. Group Name, Recovery, Online Test or Paper Test, Race/Ethnicity, etc.) may vary among the records.

While not all student data fields are required to be entered prior to testing, school divisions are encouraged to include as many fields as possible in the submitted student data file so that manual entry of data is reduced as much as possible.

Field Definitions

1. **Administration (REQUIRED):** This field must contain the code representing the administration for which the student is being registered (e.g., wrsprg09 = Writing Spring 2009 or nwsprg09 = Non-Writing Spring 2009). This field is case sensitive.
2. **Student Last Name (REQUIRED):** This field must contain the student's last name. If the student's last name is longer than 11 characters and/or contains any spaces, accents, or special characters (e.g., - ` ~ : ; ' .) , the last name will be revised in the following manner: First, any spaces, accents, and special characters will be removed. Second, if the remaining characters total more than 11, the name will be truncated to 11 characters. For example, Smith-Harvey would result in SMITHHARVEY being uploaded.
3. **Student First Name (REQUIRED):** This field must contain the student's first name. If the student's first name is longer than 9 characters and/or contains any spaces, accents, or special characters (e.g., - ` ~ : ; ' .) , the student's first name will be revised in the following manner: First, any spaces, accents, and special characters will be removed. Second, if the remaining characters total more than 9, the first name will be truncated to 9 characters.
4. **Student Middle Initial:** The student's middle initial is not a required field. The limit is 1 character. Valid characters A-Z or blank. Do not use any spaces, special or accented characters in these fields.
5. **Login ID:** This field may contain a unique 10 character ID for a student to use when logging in to TestNav, the online testing application. If this field is left empty, a unique 10 digit number will be assigned as the Login ID for each student. If the division desires to provide Login IDs, the following conventions must be followed: A limit of 60 characters, no spaces or special characters, and no duplicate Login IDs. Login IDs are not case sensitive.
6. **Division Code (REQUIRED):** This field must contain the three-digit division code that is assigned to your division by the state.
7. **School Code (REQUIRED):** This field must contain the four-digit school code that is assigned to a particular school by the state.
8. **Test Code:** This field should contain a valid test code (See tables below.) The Test Code represents the level and subject of the test that will be administered to the student. Submit a separate student record for each test administered. For example, if a student is taking Earth Science and Algebra I, that student will need two records, one for Earth Science and a second for Algebra I. If the Test Code field is left blank, a student will be registered for the administration but not assigned to a test and a Pre-ID label will not be generated. Please note these Test Codes do not replace the Subject Codes used in the Student Data Extract files.

9. **Group Name:** This field may contain a teacher name and period number, block number, or other common identifier. The maximum allowable length of this field is 20 characters, and valid characters are A-Z and 0-9. No special characters can be used. To reduce confusion, divisions are strongly encouraged not to leave the field blank and not to duplicate group names. Divisions should consider how they prefer score reports to be organized when selecting group names. For example, if a teacher instructs several sections of Algebra I and it is preferred to generate separate sets of reports for each section, the naming convention may be "Slate Alg I Block 1" and "Slate Alg I Block 2". If it is preferred to generate a set of reports that includes all students in the sections belonging to the teacher, the naming convention could be "Slate Alg I".

Student Data Upload (SDU) File Requirements

Spring 2009 Writing and Non-Writing Test Administrations

- 10. Group Code:** This field is an optional field available for use by divisions to further identify or track group information (e.g., course number, section number, period number, or other identifier). The group code will NOT appear on printed reports; however, the value will appear in the Student Data Extract file. The maximum allowable length of this field is 10 characters, and valid characters are A-Z and 0-9. No special characters can be used.
- 11. Date of Birth (REQUIRED):** This field must contain the student's date of birth and must match the four other associated fields for the student within the Educational Information Management System (EIMS) including the student's Last Name, First Name, Gender, and STI. The format of this field must follow the convention **MMDDCCYY** where MM is the 2-digit month, DD is the 2-digit day, CC is the century, YY is the 2-digit year. For example, if a student's date of birth was September 02, 1986, it would be entered into this field as 09021986. Supply leading zeros in the month and day fields where appropriate and include a 4-digit year.
- 12. Grade (REQUIRED):** This field contains the student's grade level and must be one of the following values (leading zeros are required): **03, 04, 05, 06, 07, 08, 09, 10, 11, 12, TT**. Grade TT, or Test Taker, should be used for students not currently enrolled, but who already have sufficient standard credits to graduate and are returning to retake an EOC test for verified credit or retake the Grade 8 *Reading* and/or *Mathematics* tests to certify literacy and numeracy for the Modified Standard Diploma. Additionally, Grade TT may be completed for students who are beyond school age but are taking an SOL test for verified credit or to certify literacy and numeracy for the Modified Standard Diploma. Such students may be enrolled in a class within an adult education program.
- 13. Gender (REQUIRED):** This field must contain the code representing the student's gender and match the four other associated fields for the student within EIMS including the student's Last Name, First Name, Date of Birth, and STI. The valid values for this field are one of the following:
- F=Female or M=Male
- 14. State Testing Identifier (STI) (REQUIRED):** This field must contain the student's STI as issued by EIMS and match the four other associated fields for the student within EIMS including the student's Last Name, First Name, Date of Birth, and Gender. Please contact your local EIMS Project Manager if you have students to be tested who have not yet been issued an STI.
- 15. Race/Ethnicity (REQUIRED):** This 2 character numeric field (a leading zero must be used) should contain a code representing the student's race/ethnicity. The value in this field must be one of the following and must be populated for each test the student is taking:
- | | |
|---|---|
| 00 =Unspecified | 04 =Hispanic |
| 01 =American Indian or Alaska Native | 05 =White (Not of Hispanic Origin) |
| 02 =Asian | 06 =Native Hawaiian/Other Pacific Islander |
| 03 =Black (Not of Hispanic Origin) | |
- If a student has a multi-ethnic background and does not identify with one of the groups listed or objects to providing this information, the value "00-Unspecified" should be selected.
- 16. Student Number (Optional):** This field contains a locally assigned student number. Student numbers may be up to 12 digits in length. Leading or trailing zeros are not necessary unless utilized by your division. If this field is used, it must be populated for each test the student is taking.
- 17. Title I/Targeted Assistance Services (TAS):** For students attending schools with schoolwide Title I programs, this field should **not** be completed. Otherwise, if the student is receiving Targeted Assistance Services (TAS) under Title I, this field should contain the code representing the subject area(s) in which the student is receiving

assistance. The valid codes that may be submitted for this field are as follows:

- 1 - Reading
- 2 - Math
- 3 - Reading & Math
- 4 - Science

For more information, see the school division's Title I Coordinator or the DDOT. If the DDOT has additional questions, please contact the Title I Coordinator at VDOE for your Region as listed at

<http://www.doe.virginia.gov/VDOE/Instruction/title1/index.shtml>

18. Student Category-Migrant: This field should contain a **Y** if the student is classified as Migrant.

Definition: Student Category-Migrant

A child who is, or whose parent or spouse is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work—

- (A) has moved from one school division to another;
- (B) in a State that is comprised of a single school division, has moved from one administrative area to another within such division; or
- (C) resides in a school division of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity.

Note: If a student is classified as Migrant, the student also should be coded as N-Code/Economically Disadvantaged due to the policy that as of July 1, 2005, students who meet the federal definition of migrant are considered categorically eligible for free or reduced-price meals.

19. Student Category-Homeless: This field should contain a **Y** if the student is classified as Homeless.

Definition: Student Category-Homeless

A child who is homeless and attending any school served by the local school division.

Note: If a student is classified as Homeless, the student also should be coded as N-Code/Economically Disadvantaged due to the policy that as of July 1, 2005, students who meet the federal definition of homeless are considered categorically eligible for free or reduced-price meals.

20. Student Category-Neglected or Delinquent: This field should contain a **Y** if the student is classified as Neglected or Delinquent.

Definition: Student Category-Neglected or Delinquent

A child in a local institution for neglected or delinquent children and youth or attending a community day program for such children.

21. N-Code/Economically Disadvantaged¹: This field should contain a **Y** if the student is classified as economically disadvantaged as described below:

Economically Disadvantaged

A student is economically disadvantaged if he/she:

- (1) is eligible for free or reduced-price lunch;
- (2) receives TANF (Temporary Aid for Needy Families); or
- (3) is eligible for Medicaid.

¹ Required when either Student Category-Migrant or Student Category-Homeless is populated.

22. Limited English Proficient (LEP) Status Code: For students classified as LEP (see definition below), select the appropriate code to identify the student's level of services as of October 1st or thereafter of the current school year. The valid codes for LEP Status are as follows:

- 2= Monitor Status-1st year
- 3= Monitor Status-2nd year
- 4=Identified as LEP but NOT receiving services
- 5=1st Year Post-Monitor Status
- 6=2nd Year Post-Monitor Status

Definition: Limited English Proficient (LEP)

As of January 8, 2002, an LEP student in the Commonwealth of Virginia is classified according to the federal government definition as described in Public Law 107-110, the *No Child Left Behind Act* of 2001. The law states:

An LEP student is classified as one:	
(A)	who is aged 3 through 21;
(B)	who is enrolled or preparing to enroll in an elementary school or secondary school;
(C)	(i.) who was not born in the United States or whose native language is a language other than English; and who comes from an environment where a language other than English is dominant;
OR

OR	
(iii.)	who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant;
AND	
(D)	whose difficulties speaking, reading, writing, or understanding the English language may be sufficient to deny the individual – (i.) the ability to meet the state's proficient level of achievement on state assessments described in section 1111(b)(3); (ii.) the ability to achieve successfully in classrooms where the language of instruction is English; or (iii.) the opportunity to participate fully in society. [P.L. 107-110, Title IX, Part A, Sec. 901, (25)]

23. - 1=Proficiency Level 1
- 2=Proficiency Level 2
- 3=Proficiency Level 3
- 4=Proficiency Level 4

25. **Disability Status-Section 2:** This field may be left blank as this information is no longer being collected. In the past, the field was used to indicate students classified as "Formerly Special Education" students, or those who were previously identified as having a disability under an IEP and were exited from special education services within the last two years. If data already has been reported in this field, it is NOT necessary to remove the data.
26. **X-Code-A:** This field should be left blank unless authorized by VDOE.
27. **X-Code-B:** This field should be left blank unless authorized by VDOE.

For the Spring 2009 **Writing Administration**, this field should contain a **Y** if the student is attempting to accrue sufficient verified credits to graduate before August 31, 2009. Although a Term Grad student may take two EOC Writing tests, the student's record should be uploaded with only one test assignment for the EOC Writing test. All EOC Writing records that are indicated as Term Graduates will receive two Pre-ID labels and a 2nd test assignment will automatically be generated in PEMSolutions to account for the 2nd EOC Writing test attempt. Additionally, EOC Writing test records marked as Term Graduates automatically will be appealed (scored a 2nd time).

For the Spring 2009 **Non-Writing Administration**, this field should contain a **Y** if the student is attempting to accrue sufficient verified credits to graduate before August 31, 2009.

49. **VGLA**: This field should be left blank in Writing and Non-Writing Test Administrations. This field is only used in the VAAP, VGLA, and VSEP Test Administration.

50. **VAAP**: This field should be left blank in Writing and Non-Writing Test Administrations. This field is only used in the VAAP, VGLA, and VSEP Test Administration.

54. **Y-Code-C**: This field should be left blank unless authorized by VDOE.

55. **End of Record (REQUIRED)**: This field must contain a **Y** at the end of a student record.

Updating Records via a Student Data Upload (SDU) File

An SDU file may, with some restrictions, be used to electronically update student data fields within PEMSolutions. The restrictions when electronically updating records are as follows:

- a) Test Code cannot be updated electronically for an existing test assignment. Re-uploading a student record with a revised Test Code will create a new test assignment and the previous test assignment will remain unchanged.
- b) Group Name cannot be updated electronically for an existing test assignment. Re-uploading a student record with a revised Group Name for an existing test assignment will result in a rejected record with an error message stating a test assignment for that test code already exists. The original test assignment will remain unchanged.
- c) After a test has been processed within PEMSolutions, the test-specific data (e.g., Retest, Recovery, etc.) cannot be updated via an SDU file. The changes must be completed manually within PEMSolutions.

Spring 2009 Writing and Non-Writing Test Administrations

If your file is “Complete with Problems” in the [Messages](#) column, a link will appear that indicates how many records were invalid and how much of the submitted file this represents.

Clicking on this link will take you to the screen below.

The screenshot shows the 'File Details' page for a rejected file. The file name is 'Spring_NW_JUDSON.csv' (0.1 Kb, sent by Tracy Freeman on 09/13/2008). The status is 'Rejected' with a message: 'All the records in the file had data problems. The file must be corrected and sent again. Problems are encountered when the contents of your file does not match the the specified file format or data in the file is incorrect.' A red circle highlights the 'Export to Excel' button. Below this is a table with two columns: 'Students' and 'Data Problems'. The table shows one record with the number '1' in the 'Students' column and the error 'invalid organization code' in the 'Data Problems' column. A red arrow points to the '+' sign next to the number '1'.

Students	Data Problems
1	invalid organization code

The table that appears will supply you with the number of student data records that contain a particular Data Problem. Refer to Appendix C of this document for a complete list of Data Problems and a brief description. Clicking on the “+” sign by the number of student data records will cause the display list to expand. The first one hundred occurrences of invalid records and a description of the nature of the error will be displayed on the screen along with the State Testing Identifier (STI) associated with the invalid record. Regardless of the number of errors, an error file can be downloaded into an Excel spreadsheet by clicking on the Export to Excel button.

Divisions are encouraged to review the entire student data file for the indicated error(s) before resubmitting the file. Once corrections have been made, the file may be resubmitted via the *Student Data File Submission* screen and all valid records will be uploaded into the PEMSolutions database. Each time a file is uploaded, a confirmation e-mail will be sent to the provided e-mail address(es) regarding the status.

Appendix E: Pre-ID Labels

For students taking a paper/pencil test and that have a test code included in the SDU file, Pre-ID labels will be sent to the division in the following sort order:

1. School
2. Level/Subject (i.e., Grade 8 Mathematics or EOC Algebra I)
3. Group (if provided)
4. Student Last name in alphabetical order
